TRA DIRECTORY 2024

The Thai Rubber Association was established in 1951. Presently, TRA has 39 processing and exporting companies as its members. Together, these enterprises produce and export about 80% of the national Natural Rubber production in various forms, i.e., Technically Specified Rubber, Concentrated Latex, Ribbed Smoked Sheet, Compound, and Mixture Rubber. The Association is recognized by the Government and is respected by the public as the central organization in which the government and the private sector can get together.

Tel: +66 74-429011-2, 429311

Fax: +66 74-429312

E-mail: tra@thairubber.org

Website: www.thainr.com

The Thai Rubber Association (TRA) was established in 1951 and currently has 39 members, including producers and exporters of rubber processing products, such as Ribbed Smoked Sheets (RSS), Standard Thai Rubber (STR), and Concentrated Latex, representing 85% of Thailand's total production and exports. Over the past 73 years, it has expanded its activities and continued to develop.

According to the association's rules, a new committee is elected every 2 years to manage the association's affairs. On April 3, 2024, the TRA annual meeting was held, and a new TRA committee was elected. Mr. Veerasith Sinchareonkul from Sri Trang Agro-Industry Public Company Limited has been entrusted by the TRA committee to serve as the president of the Thai Rubber Association for the first time, with a term of 2 years from April 2024 to April 2026. In addition, the new TRA committee will be officially introduced to the world rubber industry at the Thai Rubber Association Annual Dinner on May 10, 2024, at the Centara Grand at Central World Hotel in Bangkok.

Under the leadership of Mr. Veerasith Sinchareonkul, the Thai Rubber Association (TRA) is determined to continuously advance the

association by adhering to the following important policies: 1) Ensuring the utmost satisfaction of association members by providing comprehensive services and resolving issues; 2) Enhancing the quality and standards of Thai rubber while promoting Thailand's rubber industry on a global scale; 3) Fostering close collaboration with the government, rubber farmers, and rubber users in the country to uphold quality standards and to concern sustainable business development; and 4) Collaborating with international rubber organizations and rubber users worldwide to foster the sustainable growth of the rubber industry. In addition, the Thai Rubber Association (TRA) is honored to serve as a management committee of the International Rubber Association (IRA), a member of the ASEAN Rubber Business Council, a committee of the International Tripartite Rubber Council, and a committee of the International Rubber Consortium Limited (IRCo).

The current TRA committee is delighted and honored to have the trust of our members in managing a private-sector rubber organization of significant international importance. We are fully committed and ready to dedicate our physical energy and enthusiasm to successfully achieving the association's goals.

Mr. Veerasith Sinchareonkul

TRA President

TRA History

The Thai Rubber Association

สมาคมยางพาราไทย

泰國橡膠總會

Established in 1951, the Thai Rubber Association (TRA) currently comprises 39 processing and exporting member companies. Together, these enterprises produce and export about 80% of Thailand's total natural rubber production in various forms, including Technically Specified Rubber, Concentrated Latex, Ribbed Smoked Sheet, Compound, and Mixture Rubber. Recognized by the government, the Association is respected by the public sector as a central organization facilitating communication and collaboration between the government and the private sector.

Background

On March 5, 1951, the Thai Rubber Association was established by early traders under the name of 'The Rubber Traders Association of Thailand.' Its objectives were to serve as the central organization for companies comprising rubber producers and traders, fostering cooperation between them, as well as acting as the central entity for government agencies to contact the group and discuss or negotiate matters of common interest.

From that humble beginning, the Association has also been the driving force in pushing innovative activities concerning career development along with upgrading its members' standards of business administration.

The main purpose of the establishment of the Association at the beginning was to solve problems due to the non-regulated trade that lacked any rules and regulations. Buyers and sellers were free to trade and thus could satisfy their own needs and wishes without considering the impact on the trading as a whole. Understandably, there were problems with poor-quality goods as well as difficulties for contractors who did not follow or abide by contracts. This occasionally resulted in lengthy disputes and harmed the trade and its traders.

Consequently, a gathering of rubber traders calling themselves "The Rubber Traders Association of Thailand" was formed with the prime objectives of eliminating unfair trading and supporting its' honest trading members following formulated rules and regulations.

The office was appropriately located at the Bangkok Chamber of Commerce. The first meeting of the association was conducted on March 5, 1951. In its formative years, there were already 15 members including both ordinary members and special members.

It took the Association almost two decades to become a regular member of the Thai Chamber of Commerce. On the 29th of February 1968, the permit to become a trade association was given by the registrar of the Government Authority. The office was relocated to 57 Soi Rong Muang 5, Rong Muang Road, Pathumwan District, Bangkok under the name "The Thai Rubber Traders' Association".

DEVELOPMENT

Rubber production in Thailand increased not only because of strong demand from the world market but was also stimulated strongly through the replanting program of the Thai Government from 1961 onwards. This resulted indirectly in the establishment of rubber processing factories and rubber trading companies. As these professional groups needed to be in close contact with the farmers and plantation owners, their activities spread throughout the rubber-growing area in Southern Thailand.

The number of members of the Thai Rubber Traders' Association has, therefore, increased and presently comprises 39 leading companies. Some of these companies are rubber processors while others are traders.

MOVING TO THE SOUTH

With the main town of Hatyai in Southern Thailand becoming a full-blown commercial centre, and with the establishment of the Deep-Sea Port in Songkhla, there was good reason to have the Association moved to the south. Not only is that the main rubber growing area with many rubber factories and intensive transport and trading activities, it is also close to our neighbor country Malaysia, the then world's third biggest producer and exporter. In 1992 the Association moved to the town of Hatyai, Songkhla Province, and founded its office at 4/14 Thepsongkraw Rd.

In 1993 its members agreed to change the Association's name to the "Thai Rubber Association". In the following year, the office was moved to a more appropriate property: 45, 47 Chotevittayakul 3 Road, Hatyai, Songkhla its current seat.

OBJECTIVES

- (1) To promote the trading of natural rubber;
- (2) To encourage and help members to solve problems and overcome obstacles, this includes entering into negotiations with persons outside the Association, for mutual benefit in the trading of natural rubber; and conducting intelligence studies on the natural rubber markets, both domestic and foreign, for the benefit of the natural rubber trade;
- (3) To conduct research on the natural rubber trading and to exchange and disseminate technical information and knowledge on the natural rubber trade;
- (4) To collect statistical or documental or other information concerning rubber trade from all members but with the consent of members concerned;
- (5) To promote the standardization of rubber qualities; to research and improve on the processes of smoking, grading, powdering, packing as well as marketing;
- (6) To co-operate with the Government in the promotion of natural rubber trade;
- (7) To seek agreement or to establish rules of conduct for members to observe to ensure efficient conducting of the natural rubber trade;
- (8) To arbitrate in any conflict between members themselves or between members and person, or persons outside the association in matters related to the natural rubber trade;
- (9) To abstain from political activities;
- (10) To own an immovable property by buying or receiving with fascination or being donated in order to run all activities of the Association;

(11) To publish monthly news distributed to members and others.

(12) To organize activities in order to get an income; for example:
Annual Dinner and Golf Tournament.

(13) To arrange conferences and seminars, both in the Country and
abroad.

(14) To participate as a member of other associations, both in the
Country and abroad.

(15) To donate or support any activities of the other associations
within the Country and abroad.

(16) To obtain the annual membership subscription fee, the
extraordinary subscription fee, donation fee from members and general
people.

(17) To proceed with any matter depending on the agreement and
assignment of the meeting.

ACTIVITIES

1. Member Services

- Rubber Information
- Technical & Business Know-How
- Rubber Business Disputes
- Rubber Marketing

2. Cooperation with the Government

- Present as government committees
- Support Research and Seminar

3. Co-operation with the International Rubber Organization

- Member of the International Rubber Association
- Member of the ASEAN Rubber Business Council
- Endorsement of "The Green Book"

POLICIES

The policies of our team are to strengthen the members' unity to reach the following objectives;

1. To transparently administer with good governance.
2. To protect the most benefits of all TRA members as a main target.
3. To cooperate with various government & private sectors both in domestic and abroad.
4. To give full cooperation with rubber-producing countries around the world, particularly Asian groups.

5. To be a center of cooperation among producers & consumers included seeking any resolutions in rubber-business problems for mutual victory together between producers & consumers.
6. To build up a close relationship among all TRA members & the Association in order to achieve the firm development of Thai rubber industries.
7. To encourage the strength in trade & rubber industries of TRA members.
